OUR STORY

- Our mission is to educate and prepare students for life after high school, while creating high -quality products and services for our school cooperation and surrounding communities.
- Established in 2019, and have grown substantially in both sales and customers.
- Initial customers were SOCS jobs.
- Currently, jobs have become predominantly community organizations/members and local businesses.

- In 2026 we remodeled our facilities so the workstations are organized and utilize vertical space. We painted the walls, ordered new tables, and expanded the business. We now have 4 rooms in our business throughout the school.
